Security acceptance standards

In order to help us meet our high quality security acceptance standards, when shipping your valuables with us, we recommend the following measures:

- Valuable cargo be adequately packed in cardboard overpacks or wooden crates, strapped with metal tapes and properly sealed.
- Ensure that each package is clearly labelled with the name and address of the consignee, the air waybill number, the destination and number of package(s) in each shipment.
- If for any reason a package has to be opened for examination, ensure that it is re-sealed and a new seal number is registered in the air waybill and it is communicated to all concerned.

So for guaranteed peace of mind, next time you ship valuables, trust them to our care. We're sure you'll find our service priceless.

Freighting your valuables with Emirates SkyCargo

The transportation of valuable goods demands expert attention. Throughout the logistics chain, you need to know that your cargo is being handled with the utmost care at all times. That's where Emirates SkyCargo can help ensure your peace of mind. Our unrivalled expertise, coupled with state-of-the-art facilities, means that you can trust us to ensure the safe transportation of even the most valuable shipment.

Highest standards of care

Every valuable consignment shipped with Emirates SkyCargo is assured the highest standards of care. Our secure facility at the Dubai Air Cargo Terminal is widely recognised as one of the most advanced of its kind in the world, and is staffed by highly trained personnel. Throughout our network of more than 75 destinations worldwide, our staff is dedicated to handling your valuable consignments quickly, efficiently and above all, securely. In addition to secure storage and handling, all valuable shipments are assigned to trained escorts and loaded in purpose-built containers.

Thorough supervision at each step

From the moment you deposit your valuable cargo with us till it reaches its destination, Emirates SkyCargo ensures that the shipment is carefully supervised along each step of the transportation chain.

Your shipment will benefit from an exceptionally high security service over and above the high levels of security we normally provide for general cargo. This includes a highly secure area for valuable cargo, 24 hour video monitoring system and streamlined processes.

Furthermore, SkyChain-Emirates SkyCargo's fully automated system, provides customers with up-to-date information* on shipment status and tracks each consignment through every stage of its journey.

*Such information is treated with utmost confidentiality

Secure handling at all times

We ensure that all valuable shipments are booked on direct flights, without transit stops as far as possible. In cases where using an indirect flight cannot be avoided, special security procedures are implemented to ensure safe passage of the shipments.

To ensure complete protection for every valuable shipment, the following extra security measures are followed:

- Security stowage.
- Security escort from aircraft to storage facility, and vice versa.
- Specialised container for packaging.
- Special transport vehicle with anti-theft lock.
- Seamless communication, follow-up with all entities in the transportation chain.
