Custom-made Convenience

Nowadays, one can access their business from virtually anywhere, even from the comfort of their own home. So, in a world where convenience is just around the corner, Emirates SkyCargo takes great pleasure in introducing you to a range of our value-added Integrated Solutions.

Our Integrated Solutions are flexibly designed to cater to your personal and commercial needs, offering door pick-up, door delivery and door to door services.

We operate convenient and reliable high frequency scheduled services to over 100 destinations from many corners of Europe, Asia, Far East, Africa, Middle East, Australasia, the Americas and beyond.

Consistent Service

Emirates SkyCargo's Integrated Solutions are end-to-end transportation solutions - they combine our core 'airport to airport' transportation with additional value-added services like customs clearance, export processing, door delivery and door pick-up.

Understanding the value of every minute and every shipment, we have maintained our service standards at the level of the highest service benchmarks currently practiced. By this, we mean to uphold the expectations in areas of service that our valued customers hold from us.

By working in tandem with carefully selected supply chain partners at origin and destination countries within a framework of clearly defined service standards and procedures, we ensure reliable and consistent service quality.

At present, there are three types of services offered within Integrated Solutions, namely: Door to Airport, Airport to Door and Door to Door.

Door to Airport

Door to Airport is a value-added service wherein your consignment is collected from the consignor's door and delivered to the destination airport for collection by the recipient.

The value additions embedded in this solution include customs processing at the airport of origin and export documentation, as well as air waybill preparation thus making the shipment ready for carriage.

The Door to Airport solution provides reliable, hassle-free and consistent service quality. This solution includes:
