Hello Tomorrow

Hello Tomorrow

The lifeblood of the planet

The world depends on you. For the energy that drives engines and turbines. For the gas that provides lighting, heat and chemicals. For the renewable energy that powers homes and industries. These are the lifeblood of our planet. So, when it comes to vital equipment, you need a cargo solution you can depend on. Reliable, efficient, fast, flexible, offering the highest standards of service and care. Say hello to Emirates SkyCargo, our multi-award winning logistics, distribution and freight service for the oil, gas and renewable energy industries.

A large photograph of a wind farm at sunset. The sky is a gradient of orange, yellow, and blue. Several wind turbines are visible, with the one in the foreground being the most prominent. In the foreground, the silhouettes of two people are standing on a grassy hill, looking out at the turbines. The overall mood is serene and powerful.

It takes energy to move the world

The infrastructure, systems and
people to meet every cargo challenge

Our daily lives depend on harnessing the earth's energy. And the energy sector depends on customised and reliable logistics solutions.

At Emirates SkyCargo, we understand exactly what it takes to keep the oil, gas and renewable energy industries moving. Whether it's solar panels, wind turbine components and specialised oil drilling equipment, flow control mechanisms, valves, oversized turbines, or the movement of small urgent rock and oil samples, each consignment requires precise logistical solutions.

With our expertise, infrastructure and advanced industry knowledge, our specialised solutions help you manage the logistics flow in your energy business, as well as specific logistics challenges. With fast and reliable transportation, widebody-to-widebody aircraft connections and a continuously expanding network supporting your activities.

Moving the things that move your world

Charter – part of our Customised Logistics Solutions

We offer our customers a total logistics solution. Be it payload, dense cargo or oversized shipments, our freighter fleet and passenger wide-body aircraft are ready to meet every need. Our Charter Solution is reliable and flexible, designed to meet diverse customised logistics requirements.

Accommodating cargo of all types and sizes, Charter ensures delivery across a network that spans six continents.

Moreover, our dedicated, experienced Charter specialists work hand-in-hand with you to deliver the most cost-effective logistics solutions to suit intermediate and end customer needs.

You might want to consider Charter for a number of reasons:

- ♦ The cargo is oversized or oddly shaped, does not fit aboard standard freighters
- ♦ Unusual city pairs, not serviced and covered by scheduled carriers
- ♦ Destination is a remote location where scheduled airlines don't operate
- ♦ Stringent time scales, time scales are shorter and shorter. When time is critical
- ♦ Price factor – time window of a few hours as price rapidly drops
- ♦ Customer is less willing to endure the long wait by sea
- ♦ Chartered aircraft are sometimes used when demand exceeds an airline's capacity in a given market

- ♦ When the incremental cost per lost hour of production outweighs the cost, Charter is more economical
- ♦ Destinations: any markets as long as you can acquire government approval
- ♦ When you choose to charter your own freight aircraft, whether it's a small jet, or a wide-body freighter, you become the decision-maker
- ♦ Your flight is confidential, unpublished, and corporate details remain undisclosed
- ♦ It's not just about weight and costs. It's about time and the logistics of moving specialised cargo quickly
- ♦ We will ensure correct loading and unloading of aircraft, compliance with all safety measures and co-ordinate documentation between airline and handling agent

Oil well equipment

Whether it's pipes, explosives or drill bits, Charter can go a long way to facilitate transport. And when it comes to bringing in spare parts, using Charter is invariably the fastest and cheapest way to minimise the down-time of oil and drilling platforms. In fact, most critical failures can be recovered by flying in parts in a matter of hours, with response times measured in minutes, even at night or on weekends.

Oversized/heavy/project cargo

Our team of professionals is ready to take on your shipment at a moment's notice. No matter the size, complexity or logistics of the cargo, our fleet, people and technology are dedicated to your needs. Say hello to convenience without the overhead.

Opportunities wait for no one

Priority – for time-sensitive cargo

Impossible deadline? Then look no further than our premium product designed for fast airport to airport transportation.

When choosing to book with us, your consignment is not only guaranteed capacity and flown-as-booked*, but you also gain priority loading with extended booking and consignment acceptance times.

Most importantly, you can relax knowing your urgent consignment will arrive on time.

On arrival at destination the delivery of your cargo is expedited to meet deadlines*.

Our Priority cargo is attached with a money back guarantee in the unlikely event of your cargo not flown as booked*.

- Passenger Routes
- Freighter Routes
- Passenger & Freighter Routes
- Proposed New Destination

Wherever our customers need us is where we go. Through our global network, you can access destinations across six continents. Yet it's about a lot more than simply moving freight by air; it's about reaching any place in the world quickly and efficiently.

From India's floriculture farms to China's manufacturing metropolises. Australia's outback mining townships to Africa's oil platforms. No matter where in the world you do business, chances are our integrated air and regional road distribution network can reach you.

With a road feeder service operating across the Gulf, Europe, Australia, India, South Africa, China and the Americas, we provide you with a wider network of regional offline points.

The best part is you're ensured the same high standard of care, reliability and attention to detail from the moment your consignment leaves your hands and right through to its final destination.

Welcome to our Cargo Mega Terminal

One of the world's
largest logistics hubs

Working around the clock, our hub is always on, no matter when your business takes off.

One central hub in the heart of one of the world's most convenient locations, our Cargo Mega Terminal (CMT) in Dubai can handle more cargo to more destinations faster and more efficiently. No wonder the CMT has become the new benchmark in air transport logistics hubs.

Fully automated and designed from the ground up with state-of-art systems, accelerated retrieval of consignments through automated handling, storage, tracking and safety systems, the CMT can handle over 1.2 million tonnes of cargo per year. And by working collaboratively with all concerned

government authorities under one roof, we're able to streamline processes and minimise delays.

From the transportation of heavy and odd-sized shipments to consignments with special requirements, related but not limited to temperature, vibration and safety – with special storage zones and dedicated handling, the CMT can accommodate all your transportation needs.

Service you can depend on

Personal. Professional. Proactive

It all starts with a simple hello. In your own language. With an understanding of your local customs and your way of doing business. We believe our people give us the edge and we're fortunate to attract the very best talent from around the world at each point of our network.

You can rest easy knowing only the most highly-qualified people are working with you at each step of the transportation chain. We set the bar high – with performance monitoring and on-going training development programs that ensure we get better every day, to help you realise all the potential your business has to offer.
