

EMIRATES WHEELS PRICING AND PRODUCT NOTIFICATION

In order to get a representative yield per KG that can be compared to other products and to collect the fuel surcharge based on the volume displaced, please take note of the following Minimum Chargeable Weights which must be captured at the time of booking for any VEHICLE movement:

Where possible and providing the VEHICLE meets the loading criteria and dimensions for the Lower Deck (LD), we would encourage stations to sell Lower Deck positions – this typically gives us a better contribution.

UNIT / ULD	MINIMUM CHARGEABLE WEIGHT
PGA (20ft)	5,500Kg
PZA (16ft)	5,000Kg
1 MD PMC (Q4,5,6 or 7)	2,750Kg
2 MD PMC (Q4,5,6 or 7)	5,500Kg
2 LD PMC	3,300Kg

BOOKING INSTRUCTIONS:

Product Code: CAR
Commodity Code: 4214

Special Handling Codes / SHC: RMD / VEH / HEA
Rating Type: AD HOC

BUSINESS RULES AND OPERATIONAL REQUIREMENTS:

Lower Deck

BOEING 777-300ER

Length: 205" (520cm)
