

OWNER ACKNOWLEDGEMENT FORM FOR THE TRANSPORTATION OF LIVE ANIMALS – CATS & DOGS

Emirates, trading as Emirates SkyCargo (“Emirates”)
PO Box 686
Dubai
United Arab Emirates

Thank you for choosing to transport your animal with Emirates. Your animal's safety is Emirates' highest priority. Therefore, as a condition of transporting your animal, we require that you obtain a valid health certificate for your animal, familiarise yourself with the risks associated with animal air transportation and confirm that you are willing to accept those risks, including those specific to certain breeds.

RISK FACTORS ASSOCIATED WITH INJURY OR DEATH DURING ANIMAL AIR TRANSPORTATION

When your animal travels, they will be exposed to a new environment and will be restricted to a crate for an extended period of time. If your animal reacts negatively to stress or anxiety and / or is not used to extended periods of confinement, we recommend that you delay transportation until they are better prepared. Below are some, but not all, of the factors that can significantly raise the risk of distress, injury or death during animal air transportation:

- Physical traits of certain animals, such as
 - (i) larger, high energy or aggressive breeds that may attempt to escape from their travel crate or
 - (ii) small, snub-nosed breeds of cats or dogs that may struggle with environmental factors;
- Effects of stress on anxious or older animals;
- Stress associated with long journeys or multiple connections;
- Pre-existing health conditions;
- Failure to familiarise and acclimatise your animal to the crate; and
- Effects of extreme temperatures, humidity, and air pressure fluctuations and exposure to light and noise.

For more information regarding these and other risk factors we recommend that you seek veterinary advice prior to transportation. More information can also be found via the links below.

- You confirm that you have reviewed the information provided by Emirates, including animal acceptance policies and have prepared your animal for travel in accordance with those policies;
- You confirm that a licenced veterinarian has certified your animal is healthy to fly as agreed and have acquired a valid health certificate for your animal dated within the advised number of days before travel (if required);
- It is your responsibility to determine whether an animal is suitable to travel. You further confirm that you are not aware of any reason that the animal should not undertake the intended journey;
- You accept the risk factors listed above and understand that they are not comprehensive and that animal air transportation has inherent risks, including an increased risk of mortality and that environmental conditions may have a significant effect on the health and well-being of an animal;
- You will comply with all applicable laws and regulations which govern the transportation of animals, including importation or exportation laws;
- You will ensure that the animal's travel crate complies with all regulatory requirements and requirements of Emirates, including its size so that the animal has sufficient space to stand up, turnaround and lie down without restriction; and
- You understand that Emirates has the right to deny travel if your animal demonstrates aggressive behaviour or is otherwise deemed to be a travel risk.
