

Getting the aircraft
back in the air

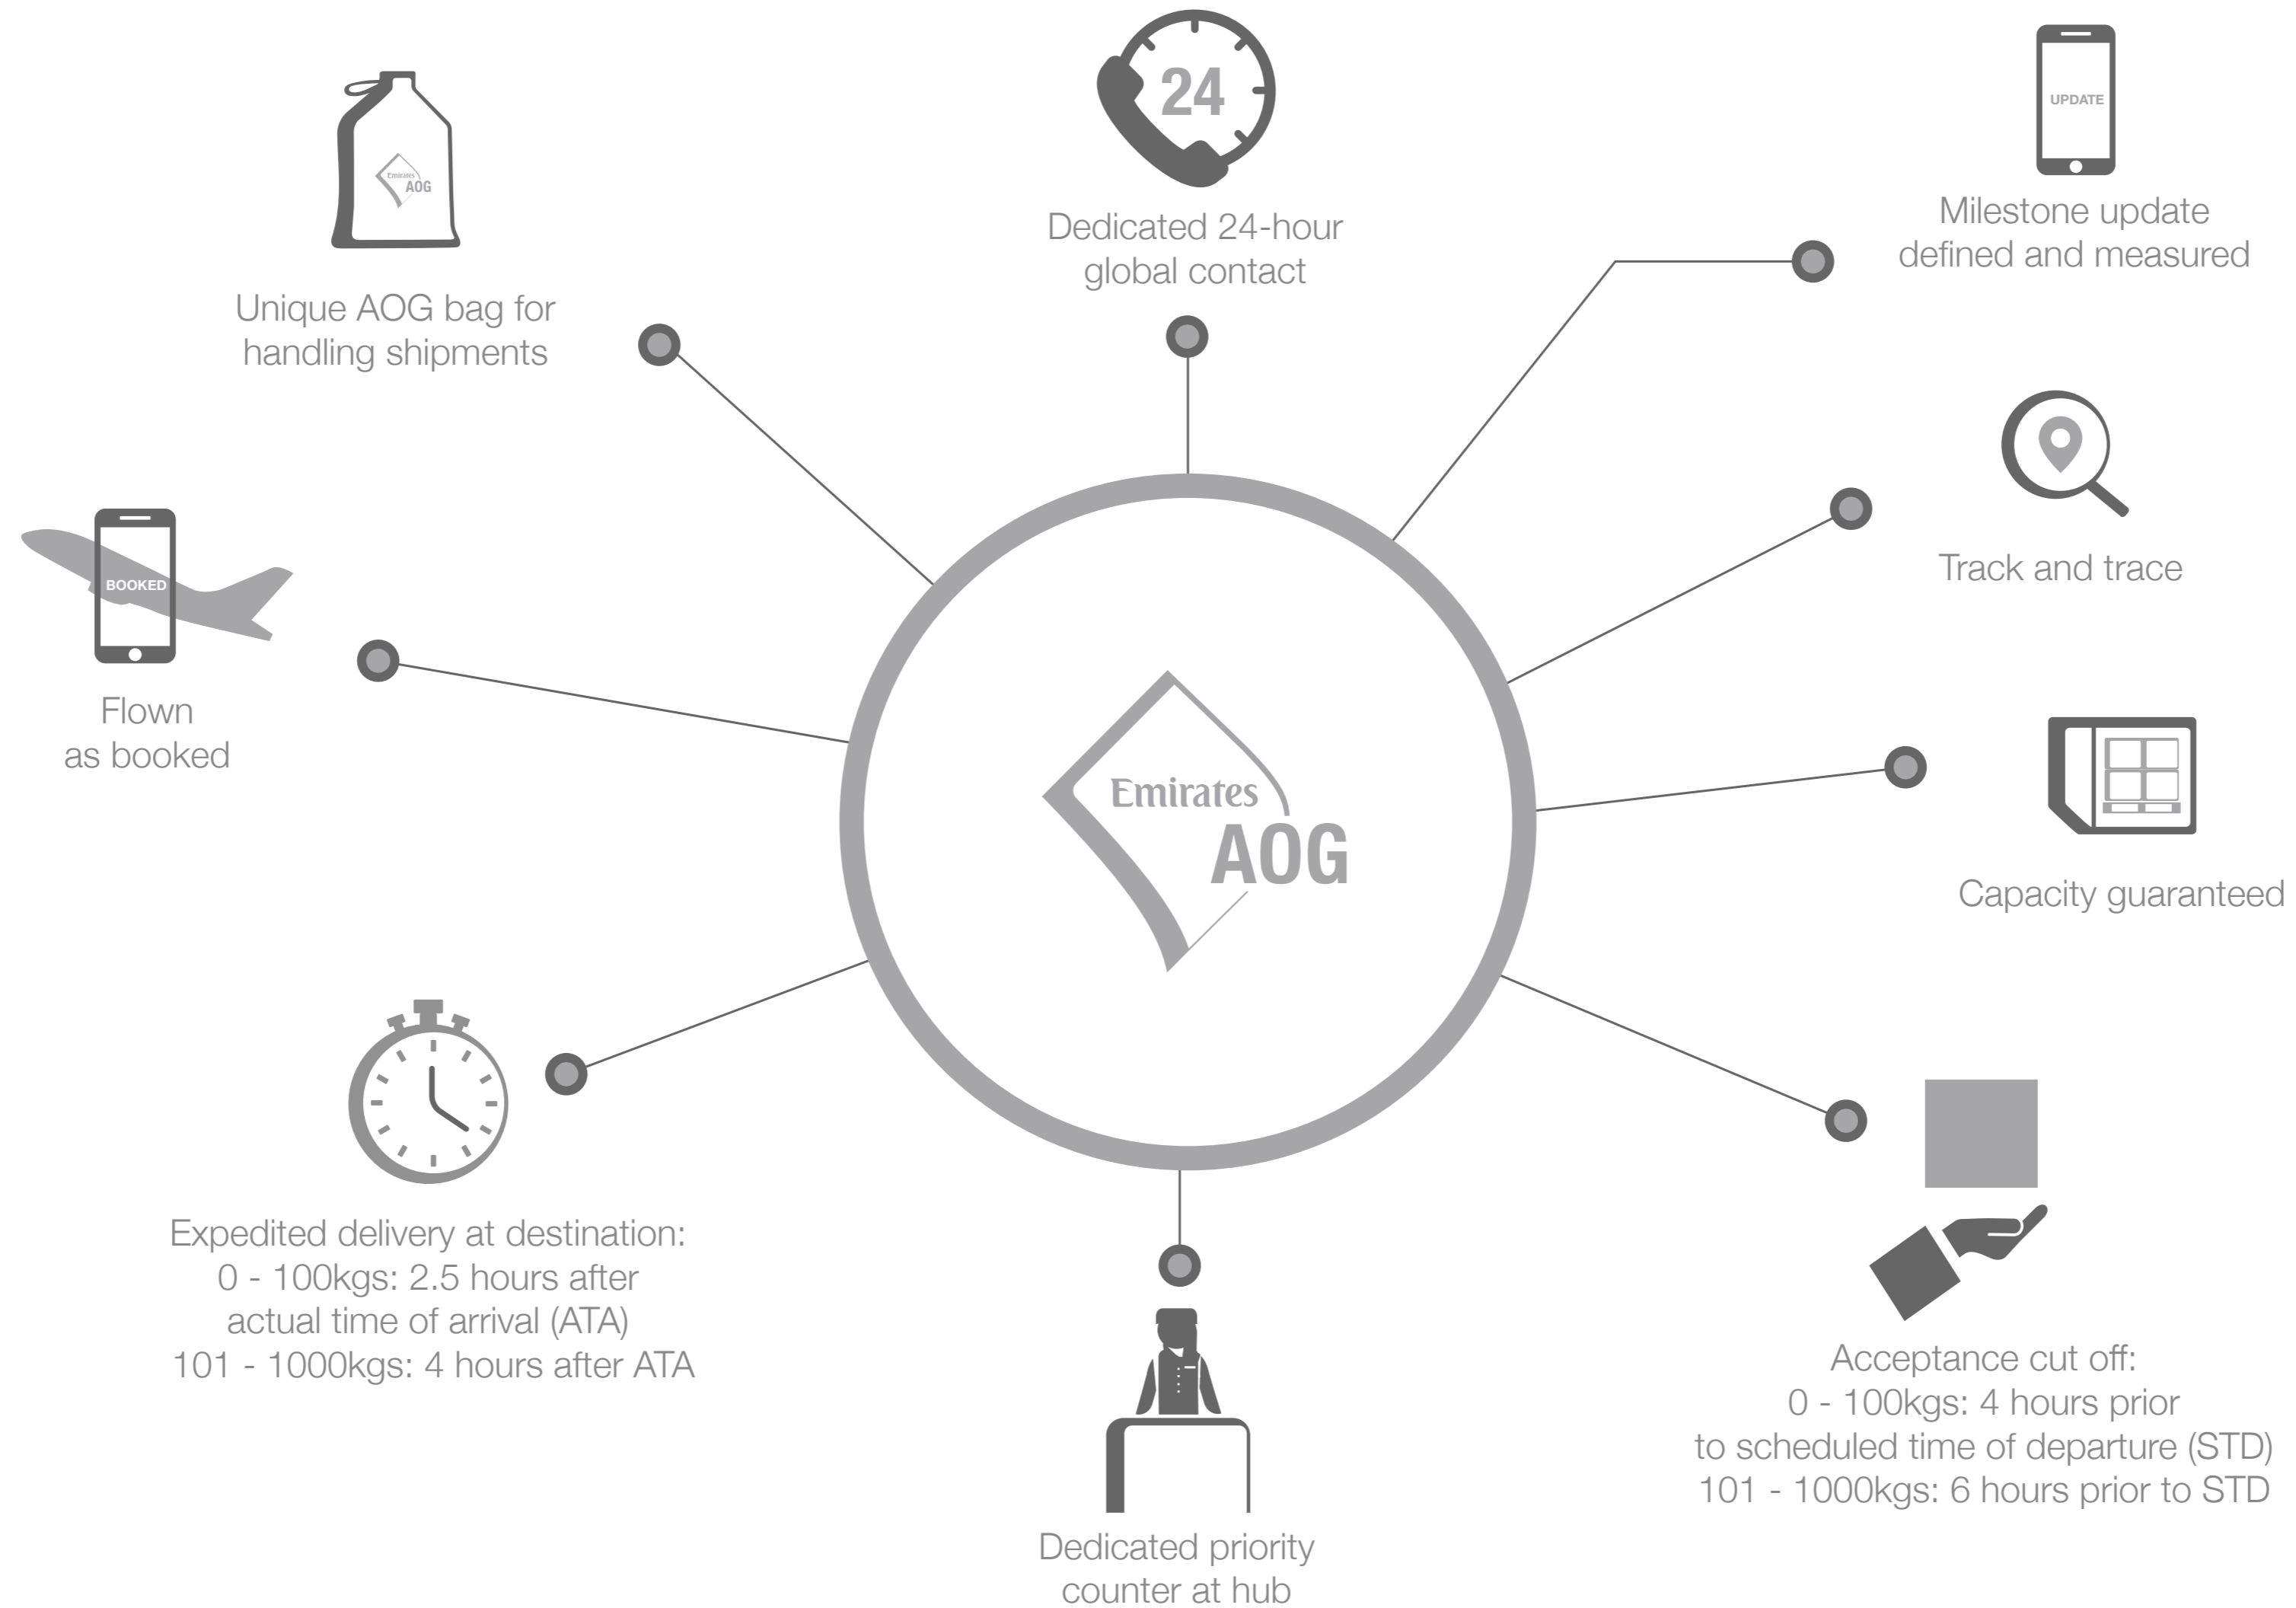

An air freight product of premium value. Specially designed for the transportation of time-sensitive and urgent commercial aircraft parts. Any and all parts can be flown to and from all Emirates Airline destinations, including freighter destinations.

What is Emirates AOG cargo?

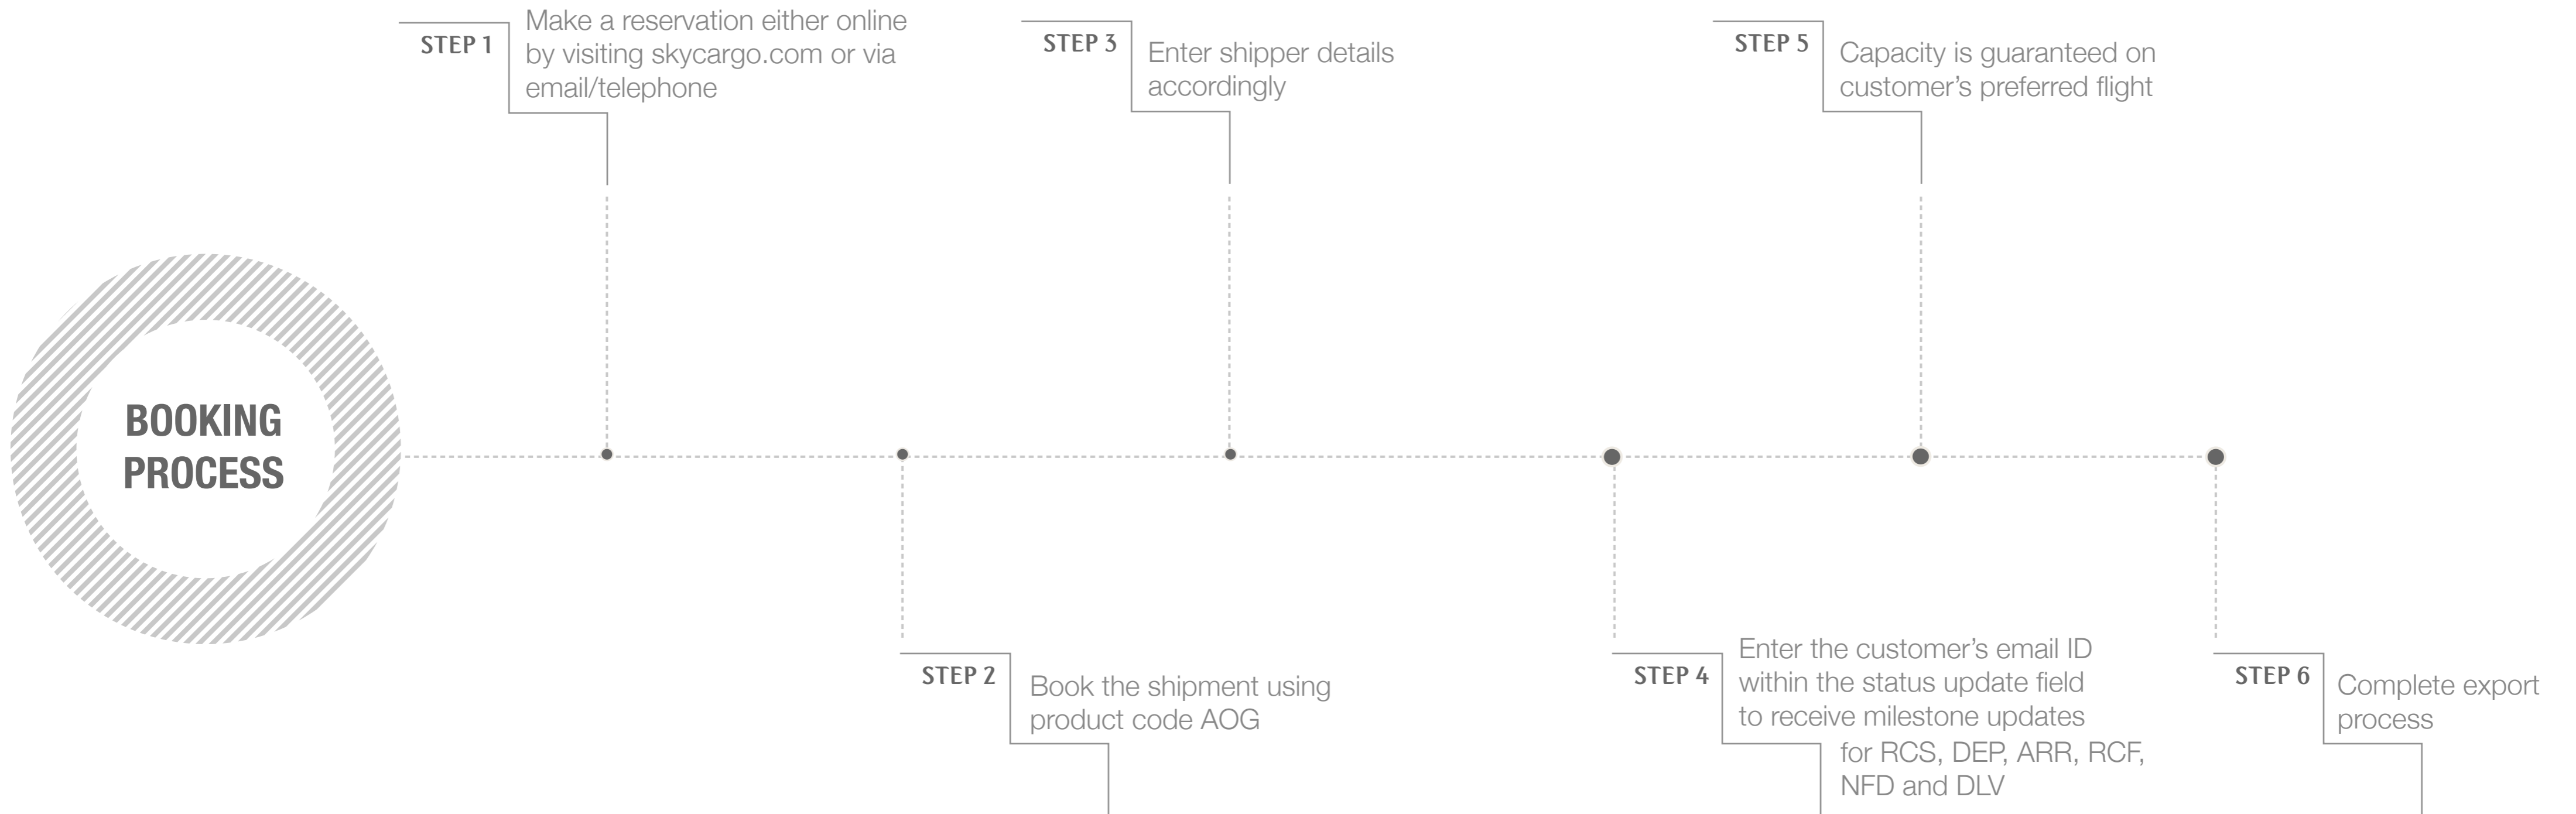

Emirates AOG is our dedicated product for small aircraft parts being airfreighted for Aircraft on Ground with the added requirement of a prioritised, expedited transport process. The majority of these shipments fall under the 0-100kgs-weight break. We are also capable of carrying shipments that weigh up to 14,000kgs, such as aircraft engines.

Emirates AOG features

Booking process

A few important points to remember while booking

1

Product & SHC Code

AOG

If this code is not selected, the shipment will be incorrectly handled as general cargo

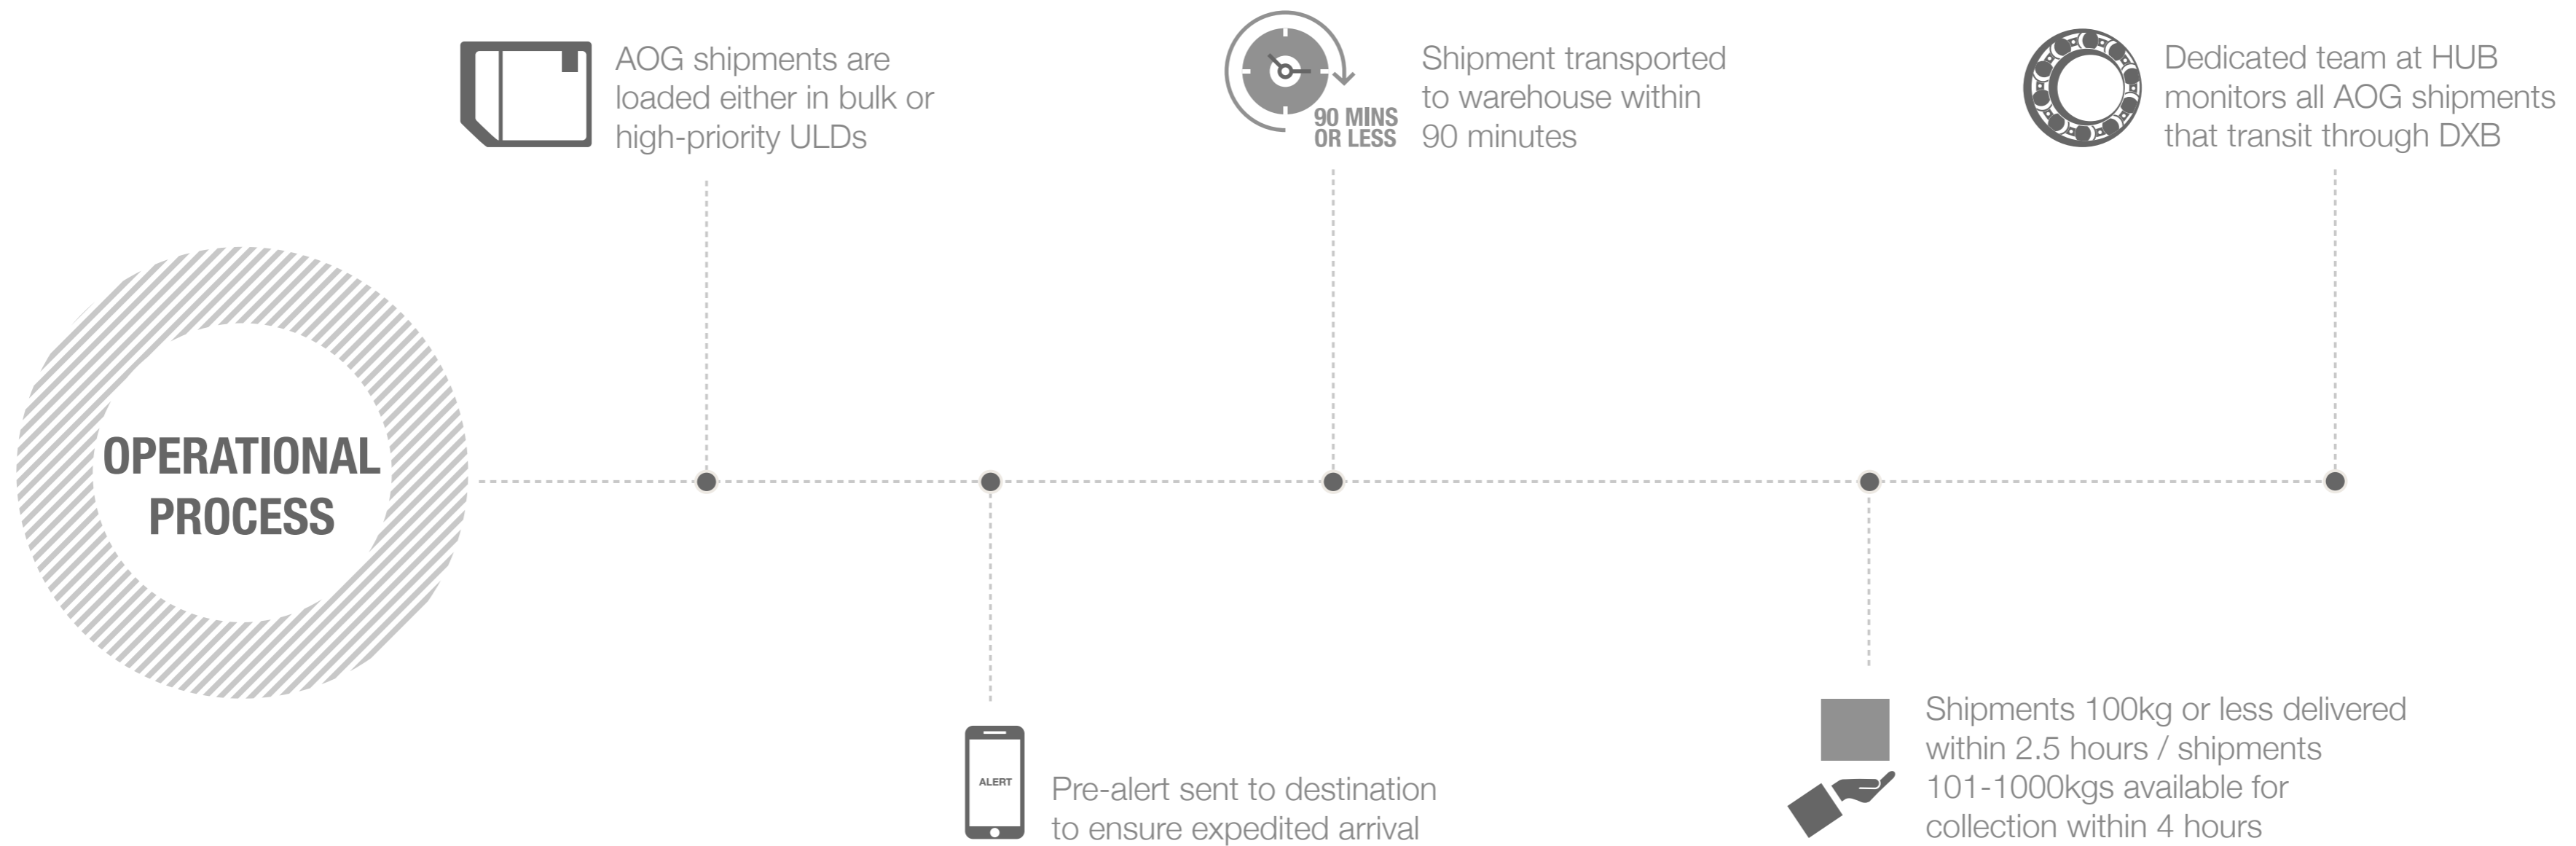

2

AOG shipments, which are also Dangerous Goods (DG) must comply with IATA DG regulations

3

Ensure the consignee's paperwork is in order to expedite delivery at the destination

Emirates AOG handling from Dubai

Communicating AOG priority status across our network

AOG shipments are stamped as top-priority in bold packaging for rapid handling at every point of the journey.

To reinforce the need for the urgent movement of time-critical aircraft parts, our highly trained personnel are kept informed with distinctive AOG posters, positioned across the network.

Freighter diversions

Emirates SkyCargo's Charter division is capable of diverting scheduled operation to airports that require AOG to be flown in the shortest time, giving an efficient, quick and economical solution for the customer.

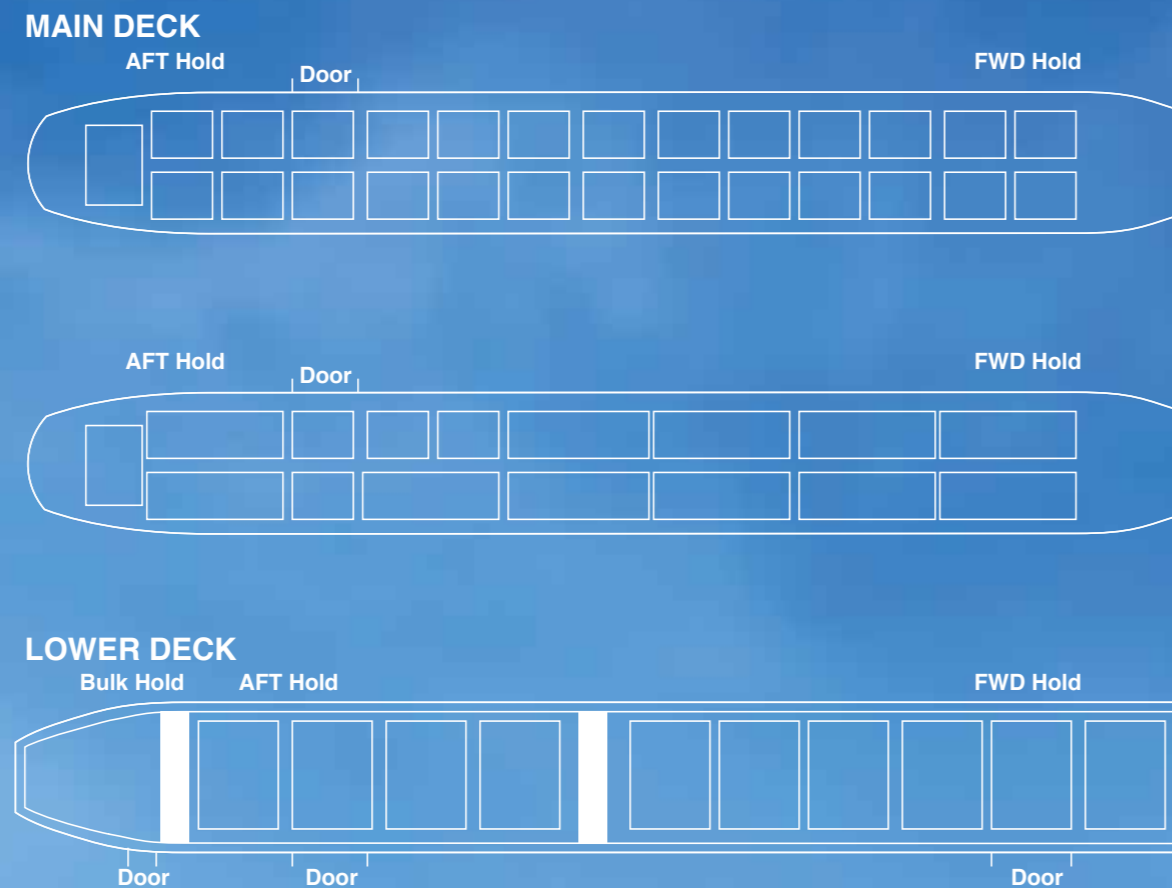

We have Load Masters positioned across the globe ready to be deployed to assist with loading.

For charters and diversions, contact us at cgocha@emirates.com

With Emirates SkyCargo's coverage across all 6 Continents on schedule basis and as many as 155 online passenger stations, we have the capacity to divert freighter aircrafts to any offline points at short notice.

Our freighter fleet

The Boeing 777F is the most environmentally-friendly freighter operated today, with the lowest fuel burn of any comparably-sized cargo aircraft. Along with its wide-deck cargo door which can accommodate oversized consignments, it is also capable of carrying up to 103 tonnes of cargo non-stop on ~10hour sector lengths.

BOEING 777F

STANDARD ULD CONFIGURATION

Main Deck: 27 PMC (96" x 125") 22 x 118" Height (Contour) / 4 x 116" Height 1 x 96" Height (No Contour)
